

Donor Sperm Banks

At Alberta Reproductive Centre, we work with a number of Health Canada approved sperm banks for people who are planning to build their family using anonymous donor sperm. If you would like to use sperm from a bank that is not listed below, please reach out to your ARC Care Team so we can work with you to see how we can best meet your needs.

While it is never too early to start looking for the right donor, we strongly recommend waiting until you have a treatment plan in place before ordering and shipping any donor sperm to Alberta Reproductive Centre.

Alberta Reproductive Centre works with the following sperm banks:
